Variables

```
$red: #833;
body {
  color: $red;
}
```

Nesting

```
.markdown-body {
  p {
    color: blue;
  }
  &:hover {
    color: red;
  }
}
```

Comments

```
/* Block comments */
// Line comments
```

Mixins

```
@mixin heading-font {
  font-family: sans-serif;
  font-weight: bold;
}
h1 {
  @include heading-font;
}
```

Mixins with parameters

```
@mixin font-size($n) {
  font-size: $n * 1.2em;
}
body {
  @include font-size(2);
}
```

Mixins with default values

```
@mixin pad($n: 10px) {
  padding: $n;
}
body {
  @include pad(15px);
}
```

Mixins with a default variable

```
// Set a default value
$default-padding: 10px;
@mixin pad($n: $default-padding) {
  padding: $n;
}
body {
  @include pad(15px);
}
```

Extend

```
.button {
  ...
}
.push-button {
  @extend .button;
}
```

Composing

```
@import './other_sass_file';
```

The .scss or .sass extension is optional.

Color functions

```
rgba
rgb(100, 120, 140)
rgba(100, 120, 140, .5)
rgba($color, .5)
```

Mixing

```
mix($a, $b, 10%) // 10% a, 90% b
```

Modifying HSLA

```
darken($color, 5%)
lighten($color, 5%)
saturate($color, 5%)
desaturate($color, 5%)
grayscale($color)
adjust-hue($color, 15deg)
complement($color) // like adjust-hue(, 180deg)
invert($color)
fade-in($color, .5) // aka opacity()
fade-out($color, .5) // aka transparentize() - halve
rgba($color, .5) // sets alpha to .5
```

Getting individual values

```
HSLA
hue($color) // -> 0deg..360deg
saturation($color) // -> 0%..100%
lightness($color) // -> 0%..100%
alpha($color) // -> 0..1 (aka opacity())
RGB
red($color) // -> 0..255
green($color)
blue($color)
```

See: hue(), red()

Adjustments

```
// Changes by fixed amounts
adjust-color($color, $blue: 5)
adjust-color($color, $lightness: -30%) // like darken
adjust-color($color, $alpha: -0.4) // like fade-out
adjust-color($color, $hue: 30deg) // like adjust-hue
// Changes via percentage
scale-color($color, $lightness: 50%)
// Changes one property completely
change-color($color, $hue: 180deg)
change-color($color, $blue: 250)
```

Supported: \$red \$green \$blue \$hue \$saturation \$lightness \$alpha

Other functions

Strings

```
unquote('hello')
quote(hello)
to-upper-case(hello)
to-lower-case(hello)
str-length(hello world)
str-slice(hello, 2, 5) // "ello" - it's 1-based,
str-insert("abcd", "X", 1) // "Xabcd"
```

Units

```
unit(3em) // 'em'
unitless(100px) // false
```

Numbers

```
floor(3.5)
ceil(3.5)
round(3.5)
abs(3.5)
min(1, 2, 3)
max(1, 2, 3)
percentage(.5) // 50%
random(3) // 0..3
```

Misc

```
variable-exists(red) // checks for $red
mixin-exists(red-text) // checks for @mixin red-text
function-exists(redirect)
global-variable-exists(red)
selector-append('.menu', 'li', 'a') // .menu li a
selector-nest('.menu', '&:hover li') // .menu: hover
selector-extend(...)
selector-parse(...)
selector-replace(...)
selector-unify(...)
```

Feature checks

```
feature-exists(global-variable-shadowing)
```

Features

- global-variable-shadowing
extend-selector-pseudoclass
units-level-3
at-error

Loops

For loops

```
@for $i from 1 through 4 {
  .item-#{$i} { left: 20px * $i; }
}
```

Each loops (simple)

```
$menu-items: home about services contact;
@each $item in $menu-items {
  .photo-#{$item} {
    background: url('images/#{$item}.jpg');
  }
}
```

Each loops (nested)

```
$backgrounds: (home, 'home.jpg'), (about, 'about.jpg');
@each $id, $image in $backgrounds {
  .photo-#{$id} {
    background: url($image);
  }
}
```

While loops

```
$i: 6;
@while $i > 0 {
  .item-#{$i} { width: 2em * $i; }
  $i: $i - 2;
}
```

Other features

Conditionals

```
@if $position == 'left' {
  position: absolute;
  left: 0;
}
@else {
  position: static;
}
```

Interpolation

```
#{ $class } { ... } // Class
call($function-name) // Functions
@media #{$tablet}
font: #{$size}/#{$line-height}
url("#{$background}.jpg")
```

Lists

```
$list: (a b c);
nth($list, 1) // starts with 1
length($list)
@each $item in $list { ... }
```

Maps

```
$map: (key1: value1, key2: value2, key3: value3);
map-get($map, key1)
```
